

FSU Bengaluru (Health Information Field Survey Unit)

1. Establishment:

The Bengaluru Field Survey Unit was established in 1981 under strengthening the Health Information and Monitoring System. It was supervised by Statistician.

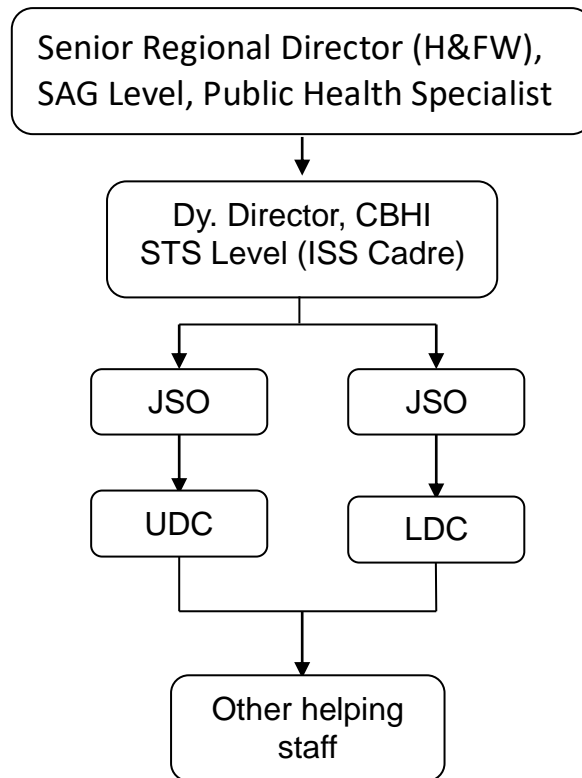

The main objective of this unit was to conduct studies on health sector on the current issues, to help to make policy decisions.

2. Functions in Brief:

At present, CBHI (Field Survey Unit), Bangalore is headed by Deputy Director who is assisted by Junior Statistical Officers and clerical staff. This unit coordinates with the States of Andhra Pradesh, Telangana, Karnataka, Kerala, Tamil Nadu, Lakshadweep and Pondicherry in CBHI related activities such as

- (i) Collection of monthly reports on communicable and non-communicable diseases annual reports on medical professionals, paramedical professionals and on health facilities
- (ii) Collection of health sector innovations for HS-PROD database
- (iii) Operational research studies conducted on the subjects selected by CBHI based on sample surveys in the State/UTs
- (iv) Creating awareness on Health Information Management and ICD-10 & ICF among medical and non-medical personnel of the said states/UTs through training programmes as per the training schedule provided by the Central Bureau of Health Intelligence.
- (v) Pursuing various needful information from (Karnataka / Tamilnadu / Telangana / Andhra Pradesh / Kerala / Lakshadweep / Puducherry) State Health Authorities as desired by CBHI.
- (vi) Coordination work with other States/UTs (allotted for FSU Bangalore) in respect of CBHI Training programmes.
- (vii) Participating in the meetings /workshops, preparing & presenting the information in respect of FSU, Bangalore.
- (viii) Monitoring of NHRR Census.
- (ix) Conducting workshops on FIC (ICD-10, ICF) to sensitize medical community.
- (x) Monthly district visits to streamline the data flow of CBHI CD& NCD data.
